

Department of
**Environment &
Conservation**

Division of Radiological Health

Anthony Hogan – Deputy Director

Division of Radiological Health

- **Mission Statement**

...to protect the public and the environment from the harmful effects of ionizing radiation...

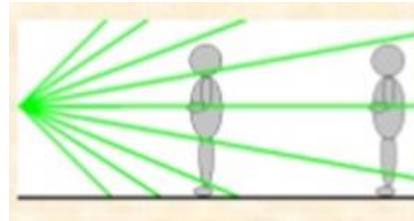

Basics of Radiation Protection

- Time

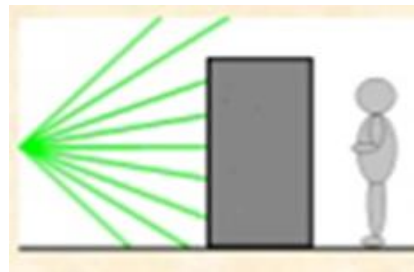

- Less time spent near radiation sources means less dose received

- Distance

- A greater distance from the radiation source means less dose received

- Shielding

- Shielding yourself, or the source, behind a thick material barrier means less dose received

Basics of Customer Focused Government

- Time

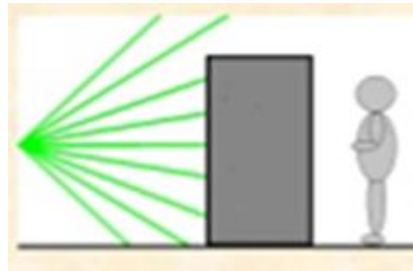

- Increasing efficiency and effectiveness for staff and customers
 - TN X-files & WBL

- Distance

- Closing distance and ensuring transparency
 - TCA records release passage

- Shielding

- Removing barriers and increasing accessibility
 - digital, secure record keeping
